Using a working set limited to 1500 pages and 110 pages of data storage (excluding image)

Total number object records read (both passes): 1495
of which 686 were in libraries and 32 were DEBUG data records containing 1748 bytes

Number of modules extracted explicitly = 1
with 19 extracted to resolve undefined symbols

167 library searches were for symbols not in the library searched

A total of 31 global symbol table records was written
